Advisory Services

Valuation

Valuing is crucial to achieving a successful outcome in a merger or any other transaction and can be a significant part of a company's restructuring planning as well as negotiations with creditors. In such situations, inaccurate or unrealistic valuations can cost a company time and money.

Our Financial Valuation process follows the basic 5 steps for any type of valuation:

1. Planning
2. Financial Statement Analysis and Projections
3. Choosing valuation method
4. Applying selected valuation method
5. Determining the business value

Feasibility Study

We carry out the feasibility study for your business as well the business considered for your investment. Furthermore, prior to financing any business, lending institutions and investors require a feasibility study. The feasibility study evaluates the project's potential for success

Normally our feasibility study covers:

1. Market Analysis
2. Technical Analysis
3. Financial Analysis
